# **SHRUBS** in the *Landscape*

Hudak draws on his extensive practical experience to offer expert advice on a wide range of issues:

- \* How to quickly find the shrubs you need \* Why shrubs make excellent additions to any landscape \* How to handle special cultivation needs \* How to use shrubs as hedges and screens \* How to select shrubs for their flowering times or potential for autumn coloration

**Full discussions are devoted to each shrub's soil and light preferences, cultivating, and pruning needs, identifying characteristics, and height and spread.**

**Generously illustrated with hundreds of black-and-white and color photographs. Over 1036 identifiable shrubs covered in 291 pages.**

Joseph Hudak, ASLA

**\$38.95 plus \$1.75 Per Copy**

**Enclosed is my remittance for Shrubs in the Landscape.**
